

A dark blue background featuring three smartphones arranged diagonally from top-right to bottom-left. Each phone has a vibrant, abstract screen with swirling patterns of purple, yellow, green, and blue. The phones have thin bezels and rounded corners. A small white navigation icon (triangle pointing right) is located in the top-left corner of the slide.

Introduction

Hi, I'm Philip Olarenwaju
OYEBANJI

Crafted to Feel Effortless

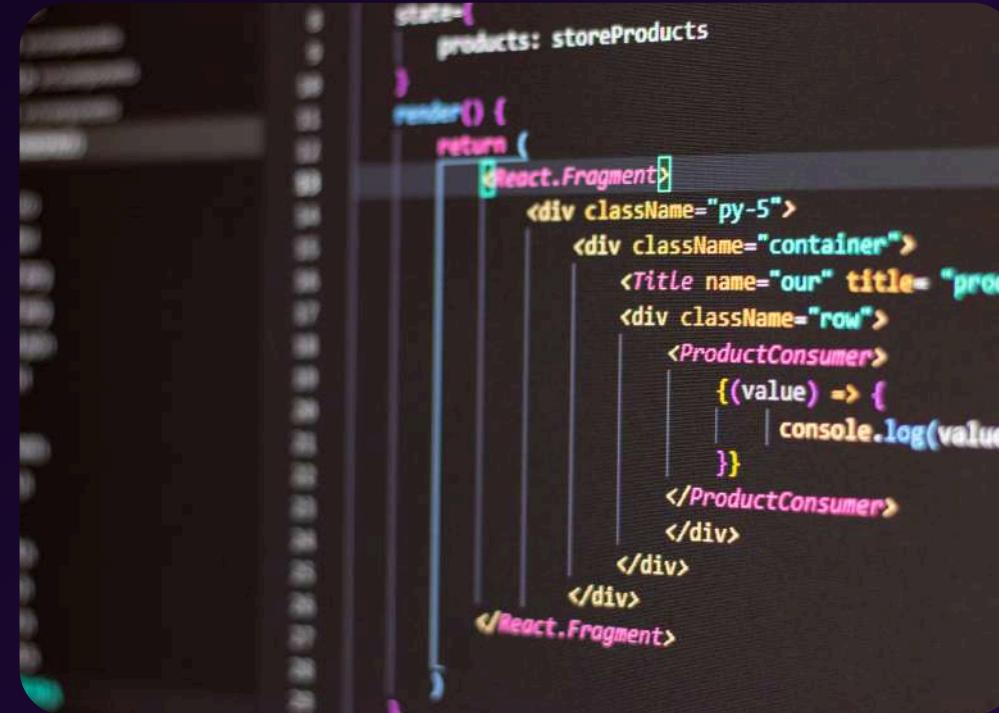

I design seamless digital experiences that combine clarity, usability, and visual harmony. Every interface I build is crafted to guide, not distract – to feel natural in the user's flow.

Creative Focus

Intuitive Interfaces

User interface design for web and mobile platforms

Seamless Experiences

End-to-end UX flow optimization

Cohesive Visual Systems

Visual system building for digital products and design systems

Process Highlights

Designing with Purpose

Laying the Blueprint

User flow mapping and wireframing

Bringing Ideas to Life

Prototyping interactive experiences

Ensuring Visual Harmony

Visual consistency through design systems and documentation

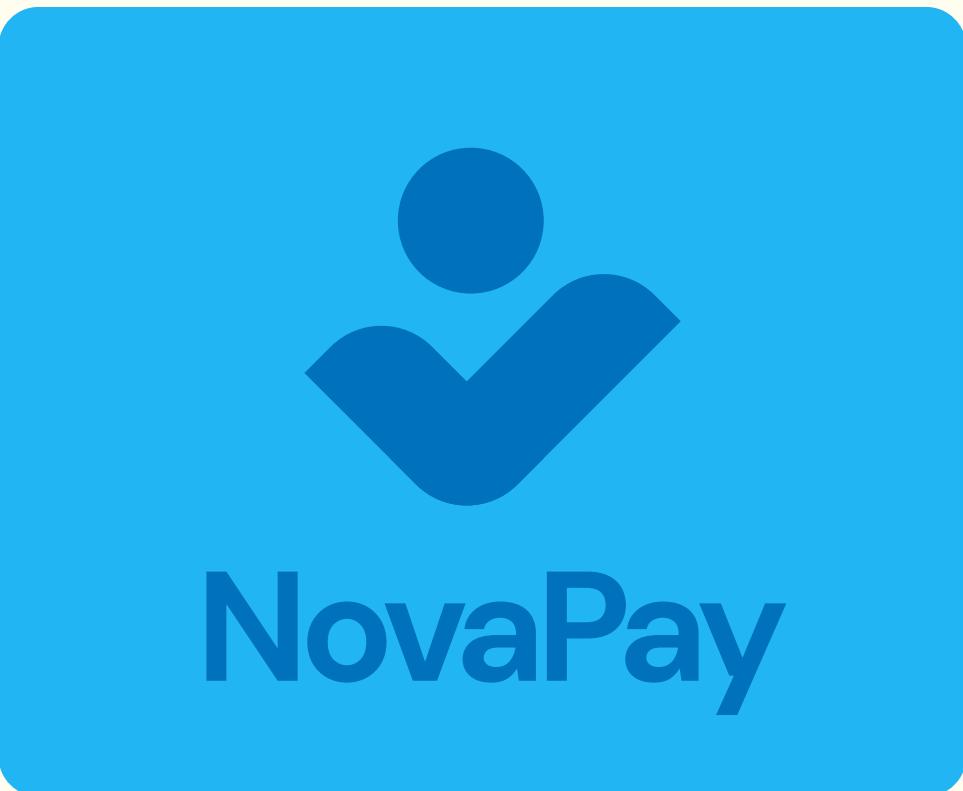

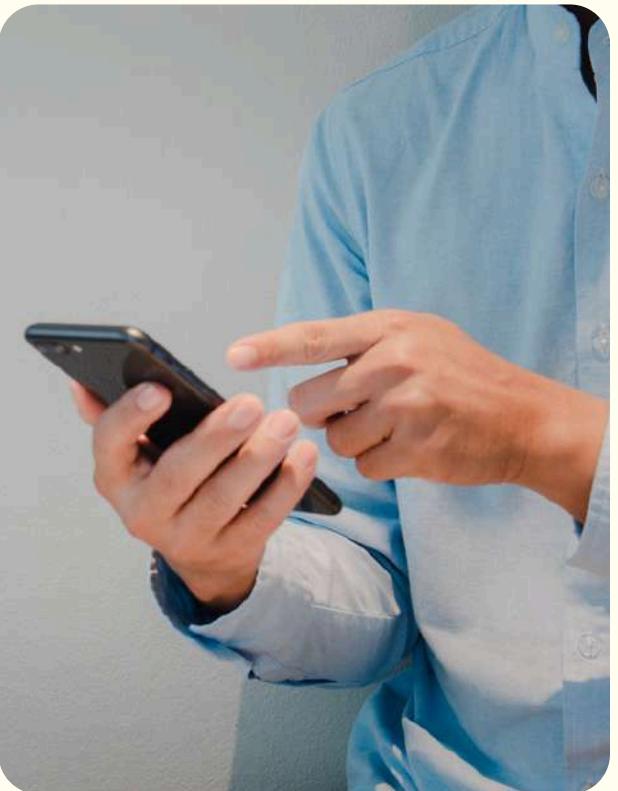

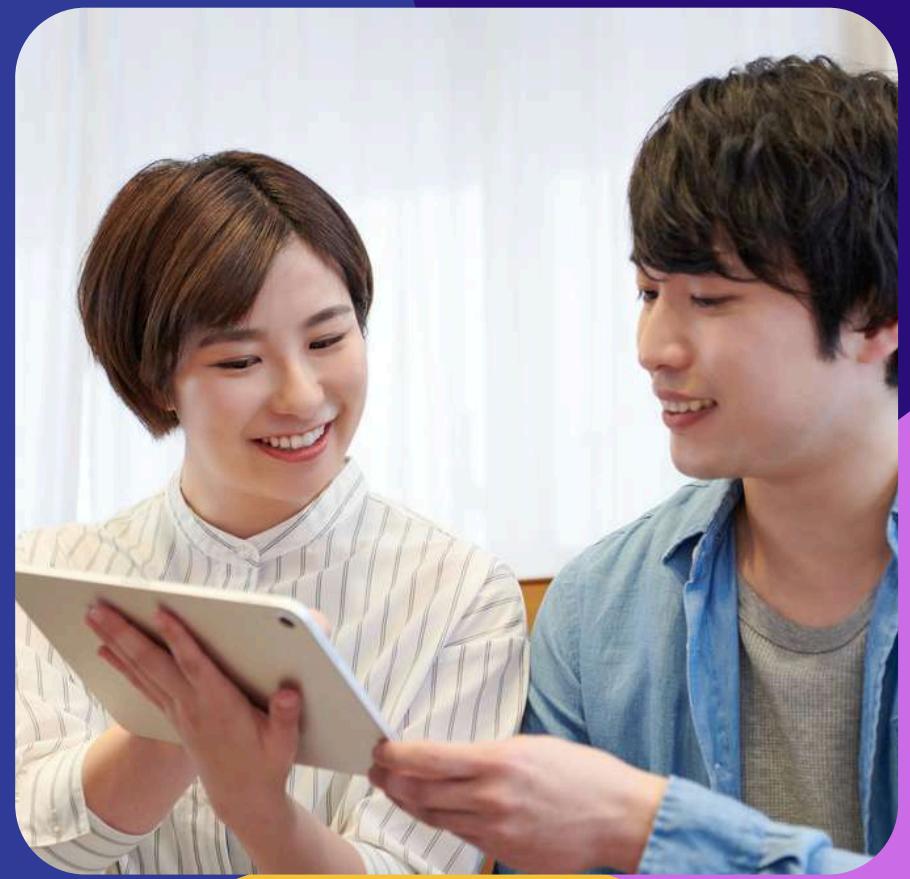

Project

“NovaPay”

A digital finance app with real-time tracking and budgeting tools.
Designed a visual system prioritizing clarity and trust.
Reduced onboarding drop-off by 32% through UX refinement.

oyebanjiolanrewaju1999-droid

Project

“Lumen Learn”

Designing for Better Learning

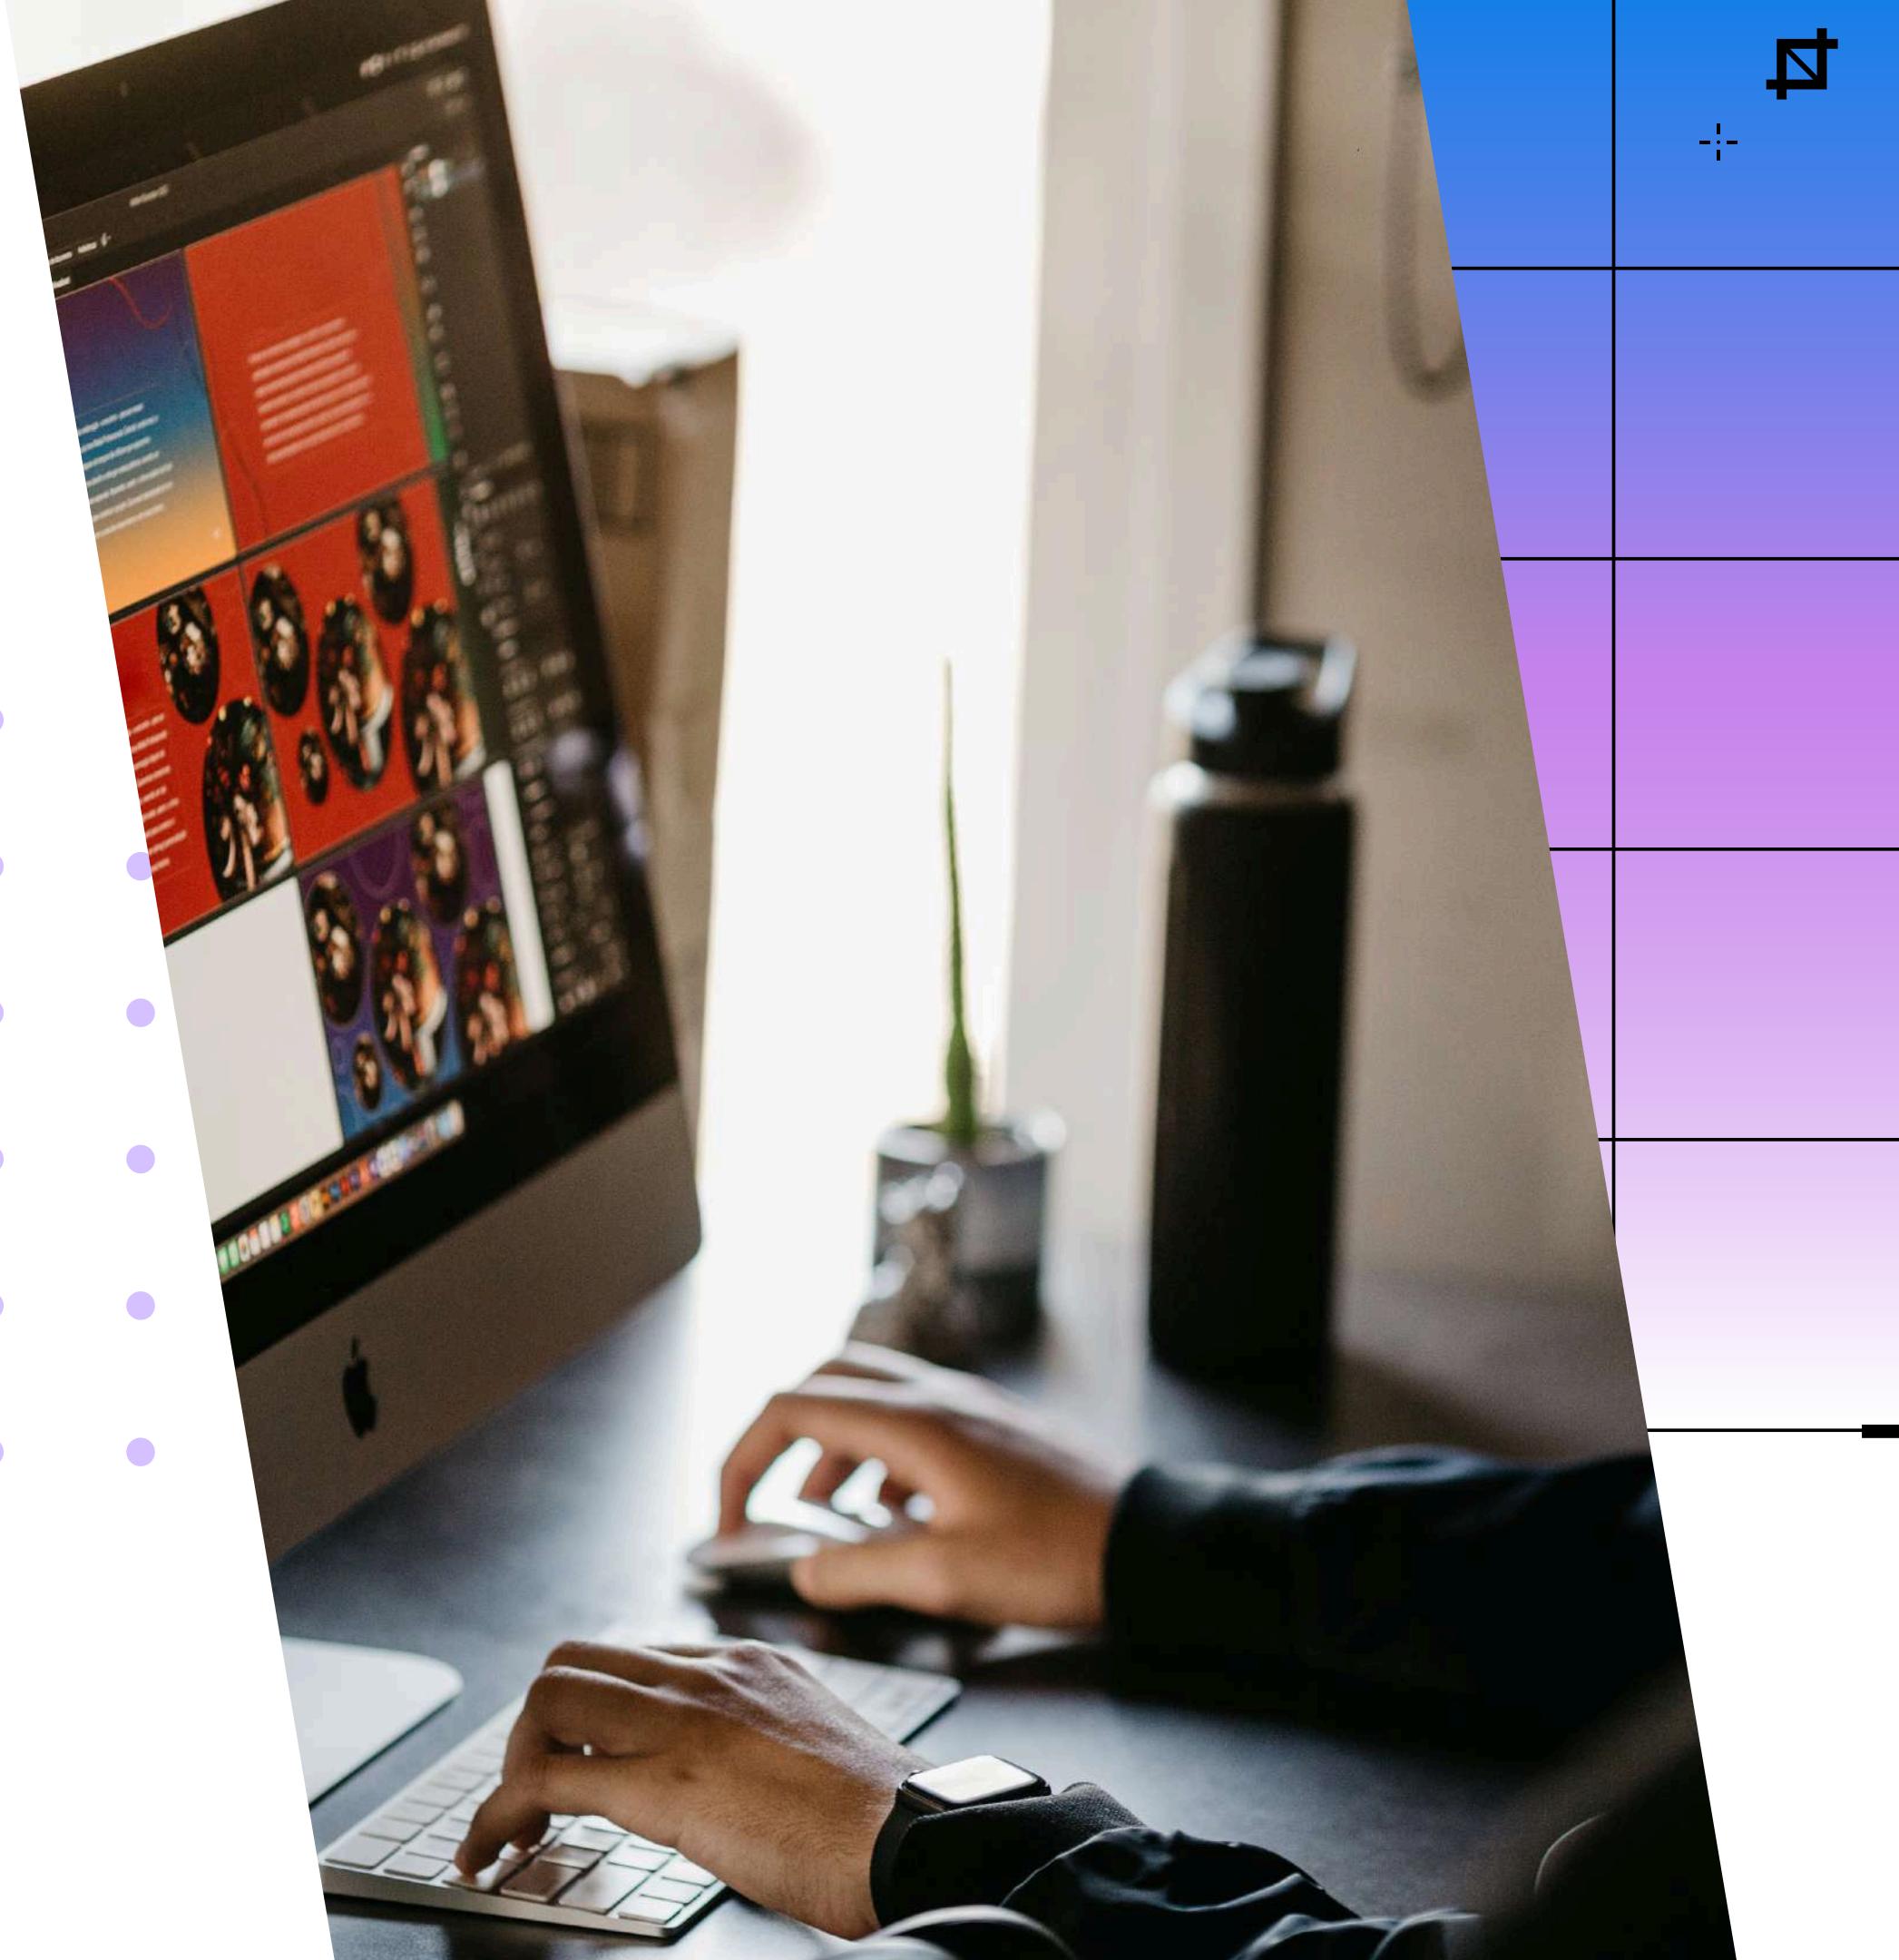

Web platform for online education.
Crafted modular UI kits and intuitive
navigation patterns.
Focus: accessibility and ease for both
students and educators.

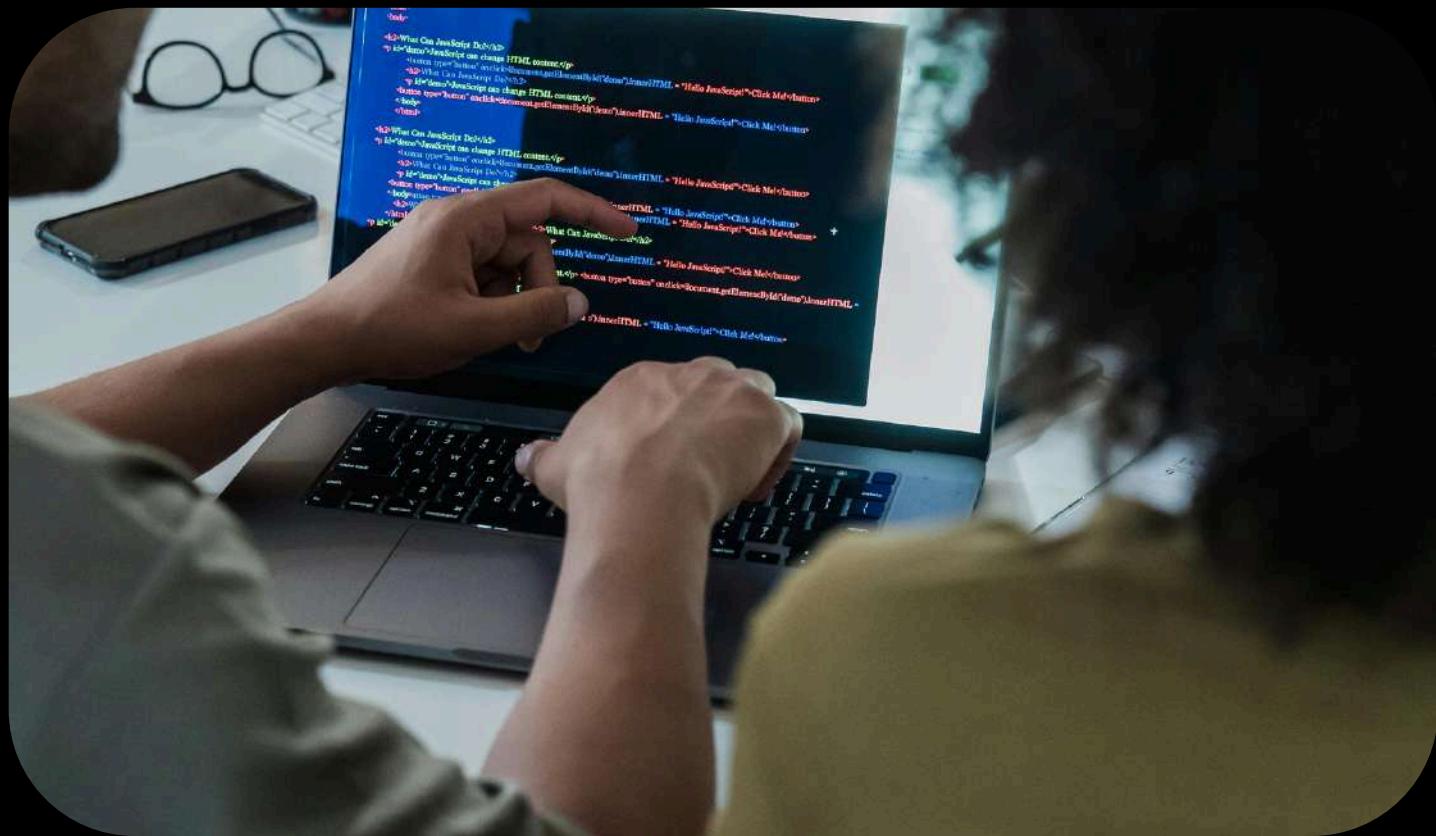

@oyebanjiolanrewaju1999-droid

Design Philosophy

I believe in clarity-driven design.
Good UX should feel invisible — it
works when users don't notice it.
My role is to architect that flow with
precision and empathy.

@oyebanjiolanrewaju1999-droid

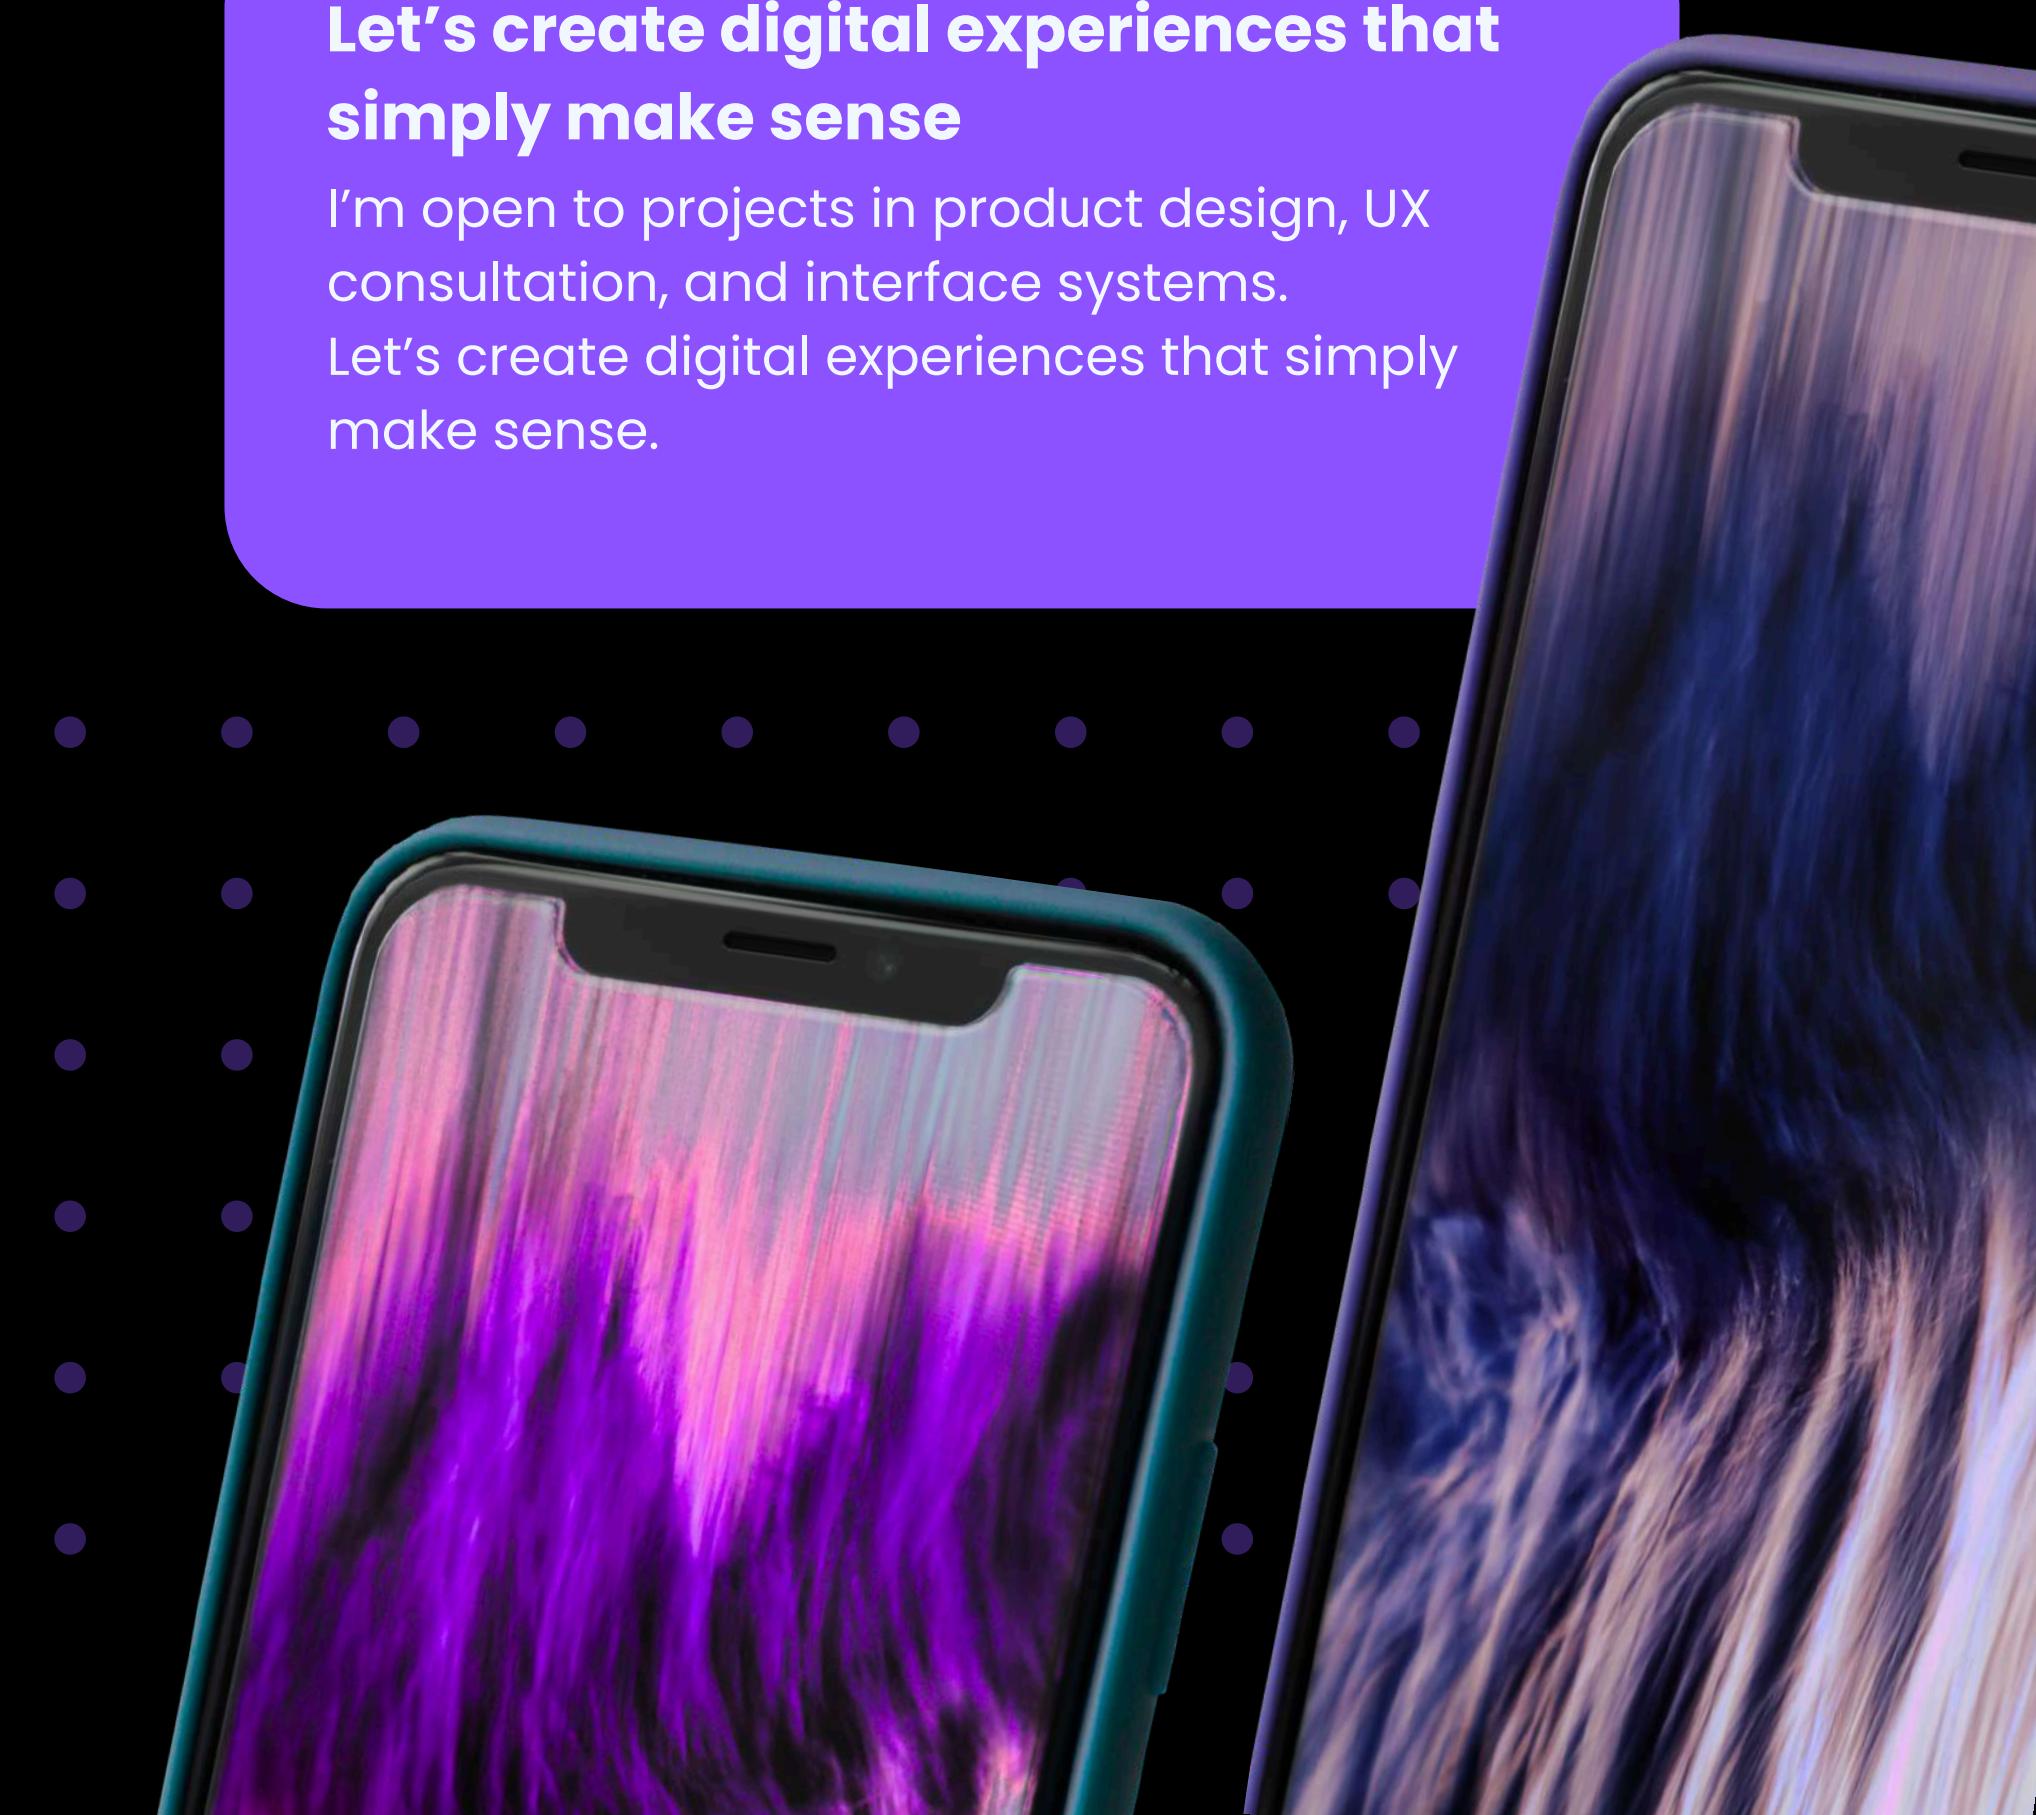

Let's
Collaborate

Let's create digital experiences that
simply make sense

I'm open to projects in product design, UX
consultation, and interface systems.
Let's create digital experiences that simply
make sense.

Thank you so much
